11 October 1962

MEMORANDUM FOR: See Distribution

SUBJECT: UNIVAC 490 Training Course

1. The second UNIVAC 490 training course will start on 29 October 1962 and will be conducted at the local UNIVAC office on Wisconsin Avenue. Classes will meet Monday through Friday, the specific classroom hours to be announced at a later date.

2. This time the course will be divided into two sessions: the first 4-week session will emphasize the characteristics of the hardware, including standard peripheral equipment (tab units, printers, drum system, etc.) and machine language coding. The second session of three weeks will feature higher level languages (SPURT-symbolic assembly language for the 490, NELIAC), various debugging aids, and REX executive routine for handling of real time input and concurrent batch processing. There will be a one week break between the first and second sessions.

3. Division and Staff Chiefs of NPIC are invited to submit to Chief, TID, names of their personnel who might be interested in attending the course. If desired, only the first session may be attended, but it is necessary to attend the first session in order to attend the second session.
